### **Your Web “Cash Register”: Setting up on-line payment systems**

What is the ultimate in website and business integration? For me, that is when my computer is my cash register; when I can sit at home, self-employed, and earn money through my computer and my website. When I can sell something through my website directly, when it can be delivered to the buyer’s computer online, and when the money is deposited directly into my account, then I can ‘sit on a beach somewhere’, the income is passive income, and I can sell an infinite number of “electrons” with no further effort. How to do exactly that is the subject of this article.

## **Book-of-Revelation-exc.pdf**

### **Book of Revelation**

By Donald Beaman. "My guidance led me to review "Revelations" prior to leading a discussion group from the local church into the dense thicket of Symbolism of the piece. The encounter convinced me that the manuscript was in a confused jumble, not unlike a dream, but also presented with an emphasis on fear and certainly warnings of judgment so dependent upon sin and condemnation. In an era when all of the ancient animosities seem re-born, if there was a sign of hope for humans in this revelation it was confused by the deluge of monstrous creatures and overtones of vengeance...seemingly indelible in the very "DNA" of genetic transmission...as if the author was recording the last acts of the Hebraic god of wrath, before absorption into the Christian God of salvation relative to sin."

## **Discovering-Noetic-Archaeology-exc.pdf**

### **Discovering Noetic Archaeology**

By Donald Beaman. In Meditation, I found myself posing questions about psychic recreation of the past, as if I was seeing through ancient eyes, or "reading the mind" of the designers of those very powerful sites. Along the way, in time, I asked for guidance in the geometry of how to draw a pyramid. Following the information, I was able to decipher a method for projecting pyramids in several variations.

**return-to-saqqara-excerpt.pdf**

**Return to Saqqara**

By Donald Beaman. The TAROT of Saqqara designed following my first trip to Egypt in 1981. The major trumps display the twenty-one columned archways in the Hallway that is the entrance to the complex at SAQQARA near Memphis. The designs were composed as a collage of drawings from the ancient monuments. The style of drawing is in the tradition of anonymity that characterized most of the ancient works. The design is my own, probably with the guidance of some Akashic memory, and with some reference to the works of the famous "Golden Dawn Society". 32 pages.

**1-Montana-Vortex.pdf**

**Vortex Field Guide: Chapter 1: The Montana Vortex**

The idea of being able to enter a reality where some physical rules like gravity and perspective, if not suspended, are decidedly skewed is titillating, exciting to think about, yet subject to pragmatic skepticism. But a neophyte to this sort of thing might ask, "What if it's real?"

**2-vortex-height-071607.pdf**

**Vortex Field Guide: Chapter 2:**

**Height Change & Other Vortex Phenomena**

Photography is the best way to prove the phenomenon. A photograph of the event will capture what the eyes see, and sometimes what they did not see. Measuring the height change within a set of before-and-after photos proves that the phenomenon is genuine.
